

## **Best Practices hosted by the institution**

### **“Enhancement of technical skills through Add-on Courses”**

Introducing technical certification courses as add-ons at SRTTCFOE is a proactive move towards enhancing students' skill sets and employability in a rapidly evolving job market.

Adding add-on courses at SRTTCFOE is multifaceted and aims to provide students with additional opportunities for skill development, academic enrichment, and career readiness.

Add-on courses are designed to equip students with practical skills and knowledge that are directly applicable to the workplace. By offering courses aligned with industry demands, the objective is to enhance students' employability and competitiveness in the job market.

Objective: -

**Relevance to Industry Demands:** Technical certification courses can be tailored to match industry requirements, ensuring that students acquire skills that are in high demand in the job market. This alignment increases the employability of graduates and prepares them for real-world challenges.

**Diversification of Skills:** Offering a variety of technical certification courses allows students to diversify their skill sets beyond their core academic curriculum. This not only broadens their knowledge base but also makes them more versatile professionals capable of adapting to different roles and industries.

**Hands-on Learning:** Technical certification courses often involve practical, hands-on learning experiences that complement theoretical knowledge. This experiential learning approach helps students develop a deeper understanding of concepts and enhances their problem-solving abilities.

**Professional Development:** Technical certification courses often come with opportunities for professional development, such as workshops, seminars, and guest lectures by industry experts. These activities expose students to cutting-edge technologies and emerging trends, keeping them abreast of the latest advancements in their field.

**Benefits:-**

**Hands-on Workshops:** Organize practical workshops where students can apply theoretical knowledge gained from add-on courses to real-world scenarios. For example, if students are learning about digital marketing, they can participate in workshops to create and optimize online advertising campaigns.

**Project-based Learning:** Assign projects or case studies that require students to apply concepts learned in add-on courses to solve real problems. For instance, in a data analytics course, students could analyze datasets to extract meaningful insights and present their findings.

**Guest Lectures and Seminars:** Invite experts from the industry or academia to deliver guest lectures or seminars on specialized topics related to the add-on courses. This exposes students to diverse perspectives and current trends in the field, enriching their learning experience.

## **Best Practise 2:** - "Percolation of Importance of Hygiene and Education in Rural Areas"

The main aim of the “Awareness of Education and Hygiene is to raise awareness about the importance of education and hygiene among rural communities, empowering them to lead healthier and more fulfilling lives. Our NSS students will be actively involved in conducting educational workshops, hygiene awareness sessions, and interactive activities to engage and educate the participants. Efforts of our NSS students will make a meaningful contribution to community development and empowerment. By promoting education and hygiene awareness, we can foster positive change and improve the well-being of rural communities. It's essential to empower communities with knowledge and resources to improve their quality of life and well-being.

**Educational Workshops:** Conduct interactive workshops and sessions on the importance of education, including topics such as literacy, skill development, and access to educational resources. Encourage participants to share their experiences and challenges related to education.

**Hygiene Awareness Sessions:** Provide information about personal hygiene practices such as handwashing, sanitation, and menstrual hygiene management. Demonstrate proper techniques and provide access to hygiene products such as soap and sanitary pads.

**Health Talks:** Invite healthcare professionals to deliver talks on preventive healthcare, nutrition, and disease prevention. Address common health concerns in rural areas and provide guidance on accessing healthcare services.

**Interactive Activities:** Organize engaging activities such as games, quizzes, and role-plays to reinforce key messages about education and hygiene. Encourage active participation and create a fun learning environment for participants of all ages.
